

HUFF STUFF

Newsletter

Issue 52

July 2021

Greetings everyone,

So we find ourselves in the middle of another lockdown. I hope you are all safe and healthy.

HUFF visits the Plateau Villages

On Saturday June 19th Mina Howard and I held a HUFF Facilitator training session for the residents of the plateau villages of Bell, Clarence, Dargan and Newnes Junction.

A big thank you to the Community Engagement Officer of the Clarence Dargan Rural Fire Brigade, Antonia, for hosting the event. All the participants were enthusiastic and positive about having HUFF in their area. We finished off the training with a sausage sizzle which went a long way to warming us up on a rather overcast day.

Jobs around the home during lockdown

Why not make the most of this current situation and get around to those jobs that will help to better prepare your home in an emergency situation.

Here are a few jobs to get you started:

- 1) Trim overhanging trees, branches and shrubs
- 2) Remove material that can burn around your home. This includes things such as wood piles, mulch, leaves, etc.
- 3) Clear and remove all the debris and leaves from the gutters surrounding your home.

I know most of us are doing these jobs, and more for those who have larger properties or are closer to the bush, on a fairly regular basis. If your garden is anything like mine there are still trees dropping leaves and it feels like I need to rake every week.

Until the next newsletter, take care of yourselves
Regards Cornelia
