Concession card holders will need to show their cards.

How many can I have?

Concession Card holders can access up to 10 Rapid Antigen Tests over three months up until 31 October 2022.

For people with a disability or who are immunocompromised, this may vary depending on your need. We recommend you collect up to 1 month's supply, based on two RATs per week. That's a total of eight RATs per person per month.

If you have multiple carers coming into your home, you may require more RATs so that all your carers can test themselves.

If you would like more information, please call us on (02) 4787 7770.
